CHAGALL

for children traveling exhibit

Chagall for Children focuses on the works of Marc Chagall. This one-of-a-kind exhibit is a unique approach to introducing children to art through the life and work of a master artist, helping children and adults alike develop a greater understanding and appreciation of all forms of artistic expression.

Flowers, 1971

At the Circus, 1976

The exhibit is designed to engage visitors in the exploration of both art and the artist through 15 interactive, multi-sensory components. Each component features one of Chagall's works with an accompanying hands-on activity in a variety of media that encourages the visitor

(Continued on page 2)

to explore and work with specific art principals such as color, composition, light and texture. Many stations are accompanied with audio descriptions, highlighting information about the artwork upon which the interactive is based. An extensive selection of books about the artist is provided to encourage further exploration and to stimulate literacy learning. Each venue receives educational and marketing materials.

Chagall for Children was developed by the Kohl Children's Museum and premiered in July 1996 in Wilmette, IL. The exhibit was rebuilt in 2005 and has since visited: Waterloo Regional Children's Museum, Ontario, Canada; San Antonio Children's Museum, TX; The Children's Museum of Houston, TX; Muncie Children's Museum, IN; and EdVenture Children's Museum, SC.
